

Rēgie

Your Private Renovation Partner

Great projects depend on how everything comes together.

EVERY RENOVATION NEEDS
COORDINATION.

THE QUESTION IS WHO
TAKES OWNERSHIP OF IT.

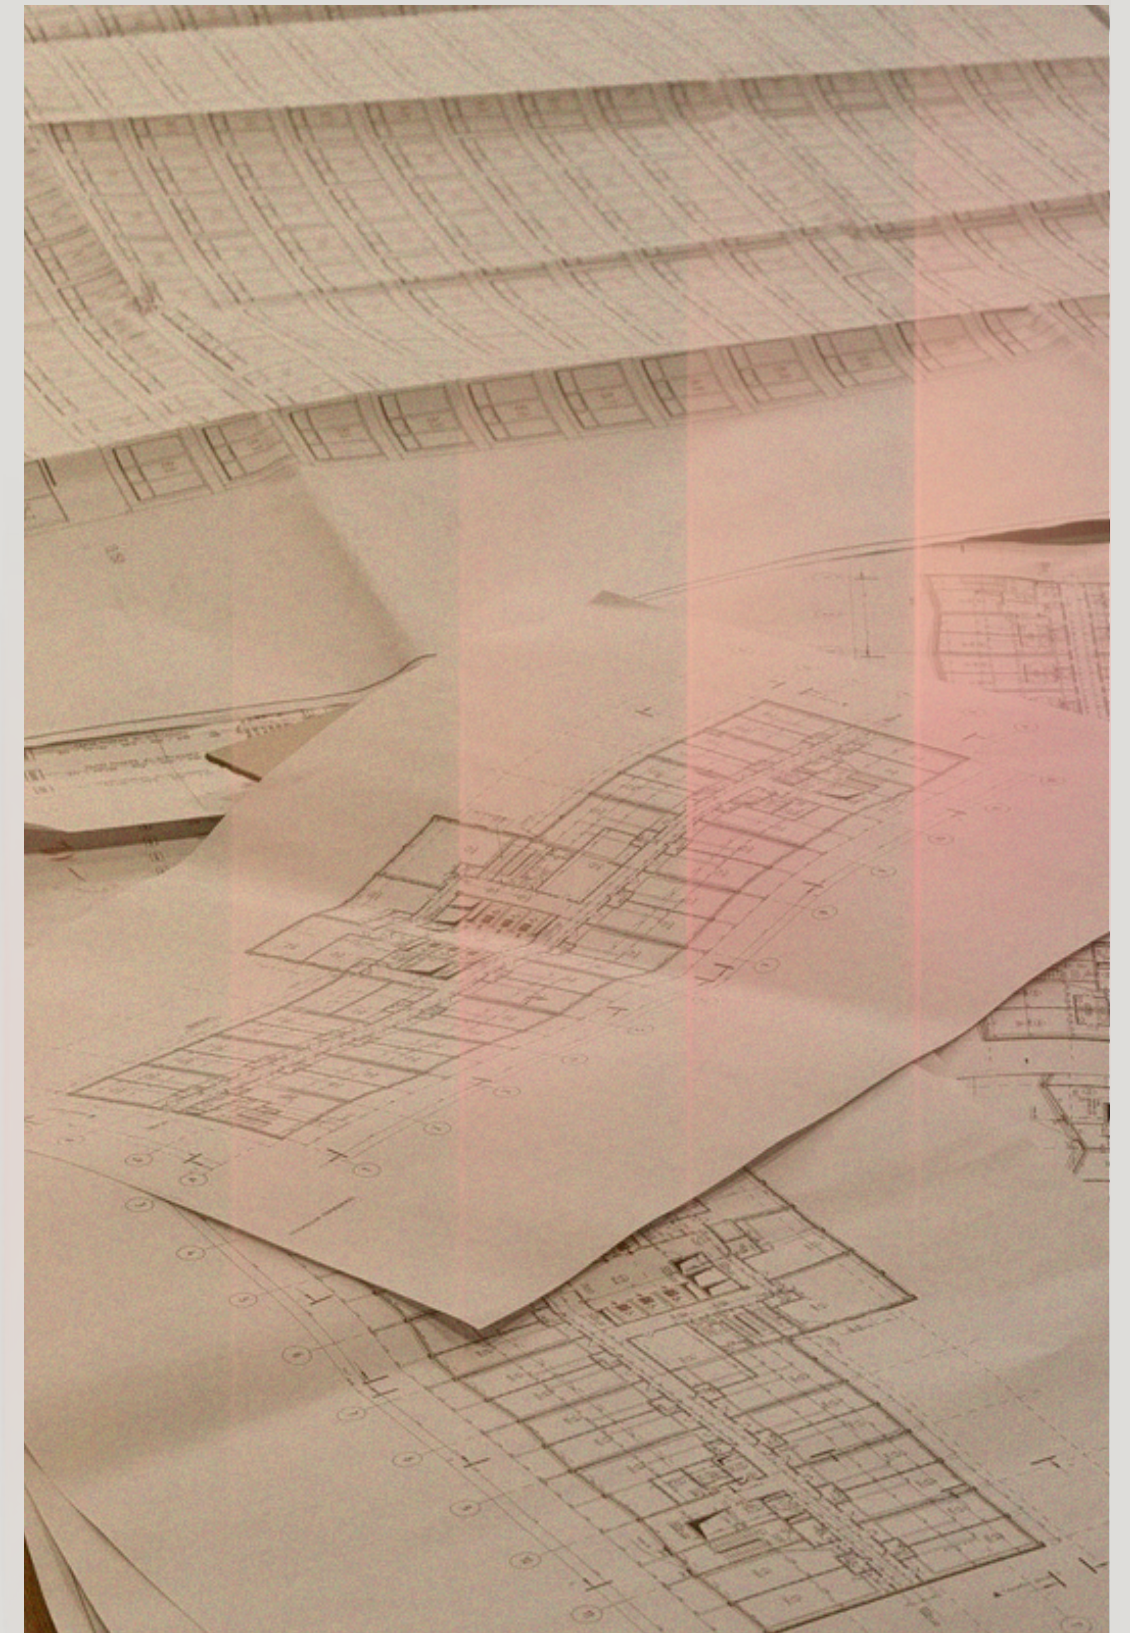

A renovation brings together clients, designers, contractors, suppliers and specialists, each responsible for their part.

But someone needs to connect the whole.

Decisions. Planning. Budget. Communication. Procurement. Follow-up.

Without dedicated direction, that responsibility is fragmented or ends up with the client.

THAT'S WHERE RĒGĪE COMES IN

NOT AN EXTRA LAYER - THE MISSING ONE

THE WORK ALREADY EXISTS.
RĒGĪE BRINGS IT TOGETHER.

- ✓ Fewer late decisions
- ✓ Less preventable rework
- ✓ Better use of specialist time
- ✓ Greater budget & planning control
- ✓ A clearer client experience

RĒGĪE COSTS MONEY
POOR COÖRDINATION COSTS MORE

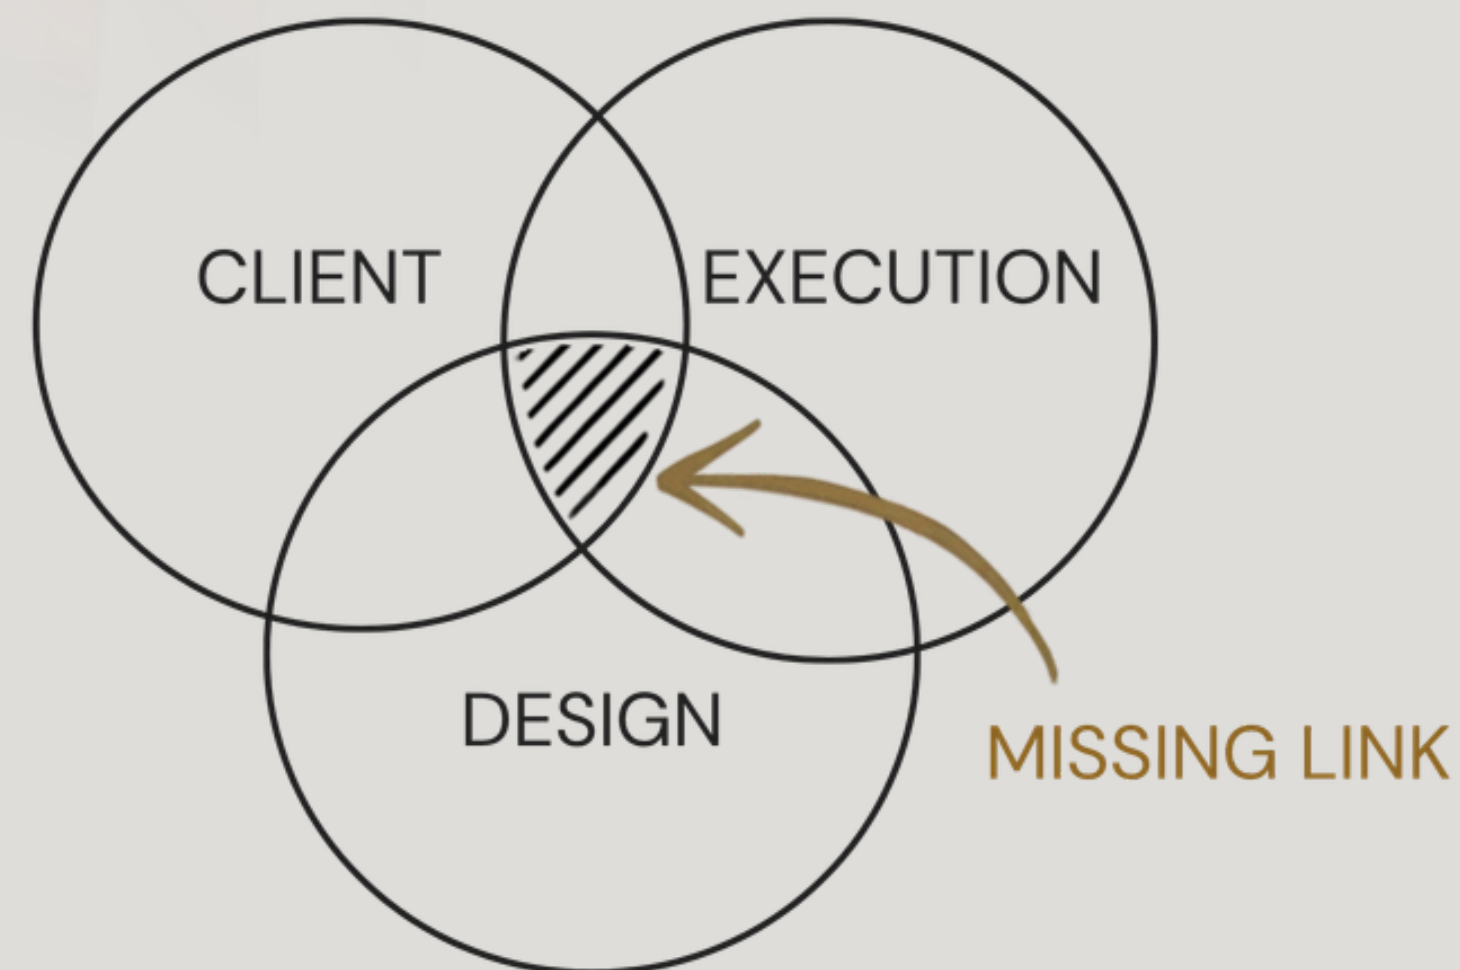

RÈGIE IS THE MISSING LINK

WE CONNECT THE CLIENT, DESIGN
AND EXECUTION THROUGHOUT
THE RENOVATION

Régie leads the wider renovation, coordinating the project alongside the professionals involved.

PLANNING • BUDGET • COMMUNICATION •
DECISIONS • PROCUREMENT • FOLLOW-UP

You remain the expert in your discipline.
We make sure your expertise connects to the whole.

WHEN A PROJECT NEEDS MORE THAN INDIVIDUAL EXPERTISE

RĒGĪE IS A STRONG FIT WHEN:

Several specialists need to work as one

The client has limited time or is based abroad

Budget, planning and decisions need active oversight

The project needs one person safeguarding the bigger picture

Rēgīe can sit alongside your service whenever a client needs broader renovation direction.

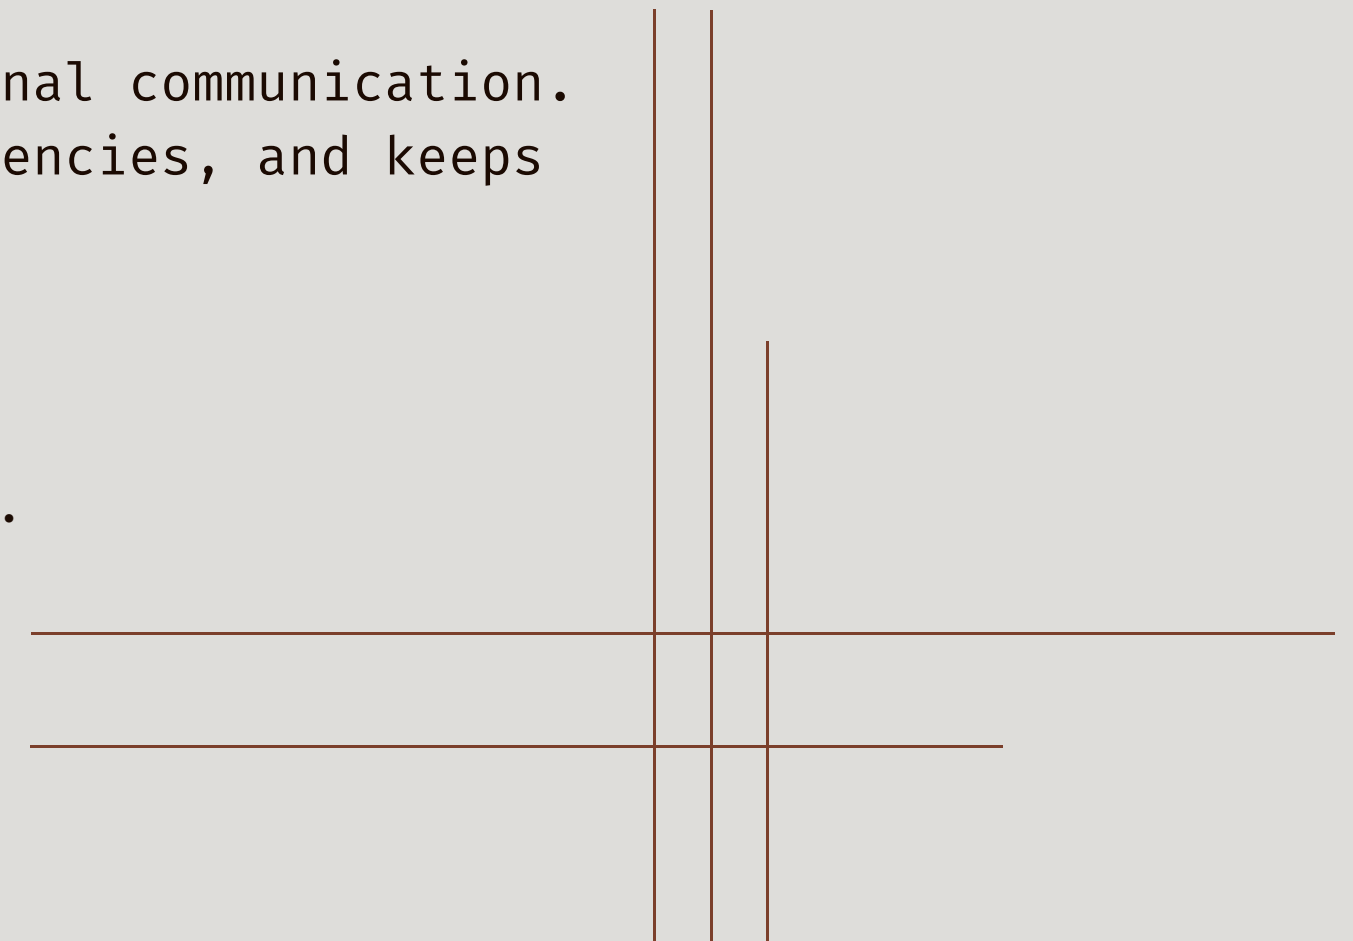

ONE PROJECT.
SHARED EXPERTISE.
CLEAR DIRECTION.

ONE POINT OF OVERVIEW FOR THE CLIENT.
DIRECT COLLABORATION WHERE THE PROJECT NEEDS IT.

Partners remain responsible for their own expertise and professional communication.
Rēgīe connects the wider project, follows up decisions and dependencies, and keeps
the client informed.

Clear roles. Open communication. Shared visibility.

The exact way of working is agreed together at the start of each project.

BETTER TOGETHER

Rēgīe works alongside the professionals involved, keeping client, design and execution connected. Each partner remains responsible for their own expertise, while we make sure decisions, information and dependencies across the project stay aligned.

HOW WE ADD VALUE

Decisions at the right time

Open decisions are actively followed up before they affect progress and eventually budget.

Clear input

Relevant information and requirements come together at the right moment.

Less noise

Coordination and follow-up beyond each partner's own scope have a clear place.

Dependencies in view

Design, budget, planning and execution are considered in relation to one another.

More room for expertise

Each partner can focus their time and expertise where they add the most value.

EACH WITH THEIR
OWN EXPERTISE
TOGETHER, ONE
COHESIVE WHOLE

AN EXTENSION OF WHAT YOU
ALREADY OFFER YOUR CLIENT.
NOT AN EXTRA LAYER.

INTRODUCING RĒGĪE TO YOUR
CLIENT

Some projects require a level of direction that goes beyond any one discipline. Rēgīe takes ownership of that wider role, keeping the renovation connected throughout.

FOR YOUR CLIENT	FOR YOU
More overview, guidance through key decisions and one clear view across design, budget, planning and execution.	More room to focus on your expertise, knowing the wider project is being looked after.

WHEN RĒGĪE IS A NATURAL FIT

When a renovation involves multiple disciplines, many decisions and ongoing coordination, Rēgīe takes ownership of the wider process. We guide the client and keep design, budget, planning and execution connected from initial direction through to final delivery.

THE RIGHT PEOPLE. THE RIGHT EXPERTISE. ONE CONNECTED PROJECT.

Rēgie works with clients, architects, designers, contractors, suppliers and specialist advisors - joining existing teams or bringing in trusted expertise where needed.

NO FIXED TEAM. NO FORCED REFERRALS.
THE PROJECT DETERMINES THE RIGHT COLLABORATION.

Annika Drion

My background is in advertising and production, where I spent years managing complex projects, tight timelines and many stakeholders, while keeping the bigger picture in view.

It taught me how to bring structure to complexity, keep people connected and move a process forward without losing sight of what matters.

What drives me is creating clarity and taking the weight of coordination off our clients' shoulders. I bring structure, clear communication and a steady hand to every project making sure decisions are followed through and the bigger picture stays in view.

Anouk Kogelman

With a background in interior design, I started my career at TANK, working on high-end interiors and learning first-hand how ambitious designs are brought to life. My work with studios including Anne Claus and DAB Studio gave me insight into different creative practices and the processes and decisions behind a successful project.

I combine a strong eye for design with a natural instinct for structure and execution. From shaping the first ideas to working with architects, contractors and suppliers, I enjoy keeping both the bigger picture and the details in view.
